Today we learned about the puppeteer, Jim Henson. He created the "Muppets," an idea that combined marionettes and puppets. They were first seen on "Sesame Street" and later in many movies.

We created our own puppet characters in the style of Jim Henson. We used tabs to make the eyes, nose and tongue look 3D. The mouth can move on our puppets by inserting the hand in the head of the puppet. We introduced our puppet to others and used it to pretend.

Today in art we learned about the puppeteer, Jim Henson. He created the "Muppets," an idea that combined marionettes and puppets. They were first seen on "Sesame Street" and later in many movies.

We created our own puppet characters in the style of Jim Henson. We used tabs to make the eyes, nose and tongue look 3-dimensional. We added more embellishments to give the puppet a character.

The mouth on our puppets move by inserting a hand in the head of the puppet. We introduced and named our puppets, and used them to pretend.
